

Belzona® offers its problem solving, polymeric repair and maintenance solutions for Oil and Gas Exploration and Production facilities around the world.

Belzona® Know-How Solutions for the Oil & Gas Industry

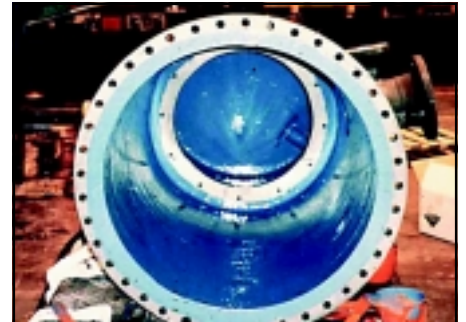

Belzona® is continuously used by the oil and gas industries worldwide because our polymeric repairs are cost effective and offer longevity, dependability and flexibility not found with conventional repairs. For over 45 years we have developed this technology. Our factory-trained Technical Consultants diagnose the problem, recommend the Belzona® Solution and provide application training and supervision.

Belzona® solves problems of:

EROSION/CORROSION
at
Elevated Temperatures
and Pressures

**DETERIORATED
PERFORMANCE**
and
Galvanic Accelerated Corrosion

CHEMICAL ATTACK
and
Under Insulation Corrosion

MECHANICAL DAMAGE
and
Crevice Corrosion

BELZONA POLYMERIC PRODUCTS AND SYSTEMS

Belzona's proven range of innovative products, manufactured under the requirements of the ISO 9002 quality standard, are designed to meet the maintenance needs of the oil and gas industry worldwide.

Belzona Polymeric Know-How Solutions can Resurface, Protect, Rebuild and Repair:

- * cable duct seals
- * chemical tanks
- * deaeration vessels
- * desanding vessels
- * downhole tools
- * earthing straps
- * flange faces
- * flare knockout drums
- * floating hoses
- * gas coolers
- * hatch seals
- * heat exchangers
- * hydrocyclones
- * mud tanks
- * injection pumps
- * insulation systems
- * oil-gas separators
- * pig launchers
- * pipe spools
- * pipe supports
- * potable water filters
- * sea water filters
- * sea water lift pumps
- * skimmers
- * transfer hoses
- * valves
- * water boxes
- * water makers

... and much more

Belzona® Products ...

Minimize Costly Downtime

Extend Equipment Life

Are Lasting and Durable

Are User Friendly

Have Outstanding Mechanical Properties

- Bond tenaciously to almost any surface, including steel, aluminum, copper, brass, stainless steel, rubber, fiberglass laminate, concrete, unglazed ceramics and glass
- Superb abrasion, chemical and cavitation resistance
- Outstanding corrosion protection and resistant to a broad range of chemicals
- Heat resistant
- High mechanical strength
