

**Belzona® offers its problem solving, polymeric repair and maintenance solutions for the Marine Industry.**

## *Belzona® Know-How Solutions for the Marine Industry*

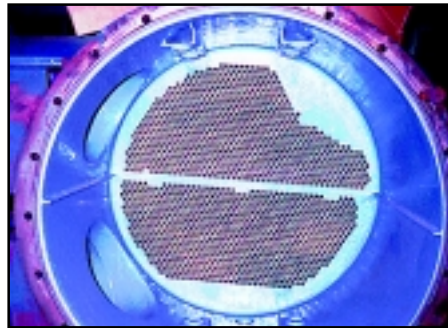

Belzona® is continuously used by the marine industry worldwide because our polymeric repairs are cost effective and offer longevity, dependability and flexibility not found with conventional repairs. Since 1952 we have developed this technology. Our factory-trained Technical Consultants diagnose the problem, recommend the Belzona® Solution and provide application training and supervision.

**Belzona® solves problems of:**

**EROSION / CORROSION**  
in  
Fluid Flow Systems

**GALVANIC DAMAGE**  
on Heat Exchangers, Pumps  
and other  
Critical Equipment

**EMERGENCY REPAIRS**  
while  
Underway

**MECHANICAL DAMAGE**  
and General Equipment  
Repairs Throughout the  
Entire Ship

# BELZONA POLYMERIC PRODUCTS AND SYSTEMS

Belzona's proven range of innovative products, manufactured under the requirements of the ISO 9002 quality standard, are designed to meet the maintenance needs of the marine industry worldwide.

## Belzona Polymeric Know-How Solutions can Resurface, Protect, Rebuild and Repair:

- \* bowthrusters
  - \* brake drums
  - \* cable potting
  - \* chocks
  - \* condensers
  - \* conveyor belts
  - \* cylinder liners
  - \* end covers
  - \* engine blocks
  - \* evaporators
  - \* floating hoses
  - \* housings
  - \* impellers
  - \* jet drums
  - \* key ways
  - \* insulation
  - \* pipes
  - \* pneumatic clutches
  - \* propellers
  - \* rams
  - \* rudders
  - \* sea chests
  - \* shafts
  - \* shims
  - \* steam valves
  - \* strainers
  - \* tail shafts
  - \* tanks
  - \* turbine casings
  - \* water tight door seals
- ... and much more

**Belzona® Products ...  
Minimize Costly Downtime  
Extend Equipment Life  
Are Lasting and Durable  
Are User Friendly**

## Have Outstanding Mechanical Properties

- Bond tenaciously to almost any surface, including steel, aluminum, copper, brass, stainless steel, rubber, fiberglass, laminate, concrete, unglazed ceramics and glass
- Superb abrasion, chemical and cavitation resistance
- Outstanding corrosion protection and resistant to a broad range of chemicals
- Heat resistant
- High mechanical strength

## Are Widely Accepted
