

Product Data

Flexible, Long-Term Waterproofing System

Belzona® 3131 (WG Membrane) is a single component, moisture activated coating for the long-term repair and protection of all types of roofs.

Belzona® 3131 (WG Membrane) is an easily applied polymer coating, designed for all weather conditions, and will not be damaged by rain immediately after application.

Belzona® 3131 (WG Membrane) will:

- Simplify roofing maintenance
- Bond strongly to all types of roofing substrate
- Follow complex roof contours
- Provide long-term protection
- Minimise weather disruption

Belzona® 3131 (WG Membrane) will maintain flexibility throughout its service life ensuring long-term waterproofing of all types and designs of roof structures.

Belzona® 3131 WG Membrane

Flat Roofs

Gutters

Pitched Roofs

Skylights

Belzona® provides the solution to your repair and maintenance needs.

BELZONA[®]
Repair • Protect • Improve

Belzona® 3131 (WG Membrane) is:

Simple

- One product for all substrates
- Easy brush application
- Single component, no mixing required

Safe

- Cold temperature application and cure ensures no fire risk
- Lightweight application

Versatile

- Follows complex roof contours
- Highly elastic, adapts to roof movements
- Micro-porous, will not entrap moisture
- Bonds strongly to most substrates
- Suitable for use on flat or pitched roofs

Effective

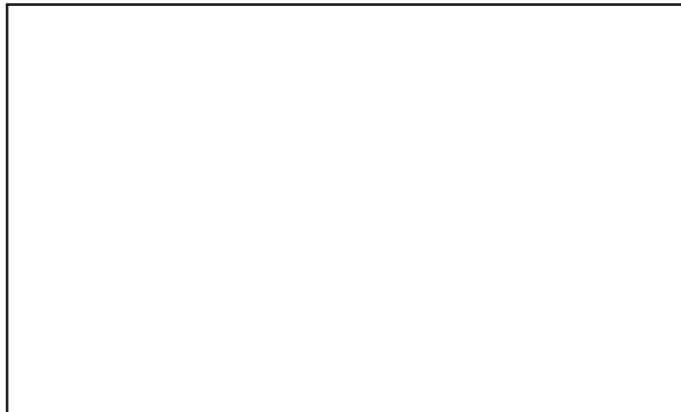

- Long-term repair and protection
- Excellent UV resistance
- Outstanding environmental protection
